

EMAIL and SMS MARKETING for Non Profits

Funds are typically tight for a non-profit, often having to create miracles from little. Nowhere is this more apparent than with your marketing efforts.

Your organization doesn't have a dedicated marketing person, or even if you do, the person is usually stretched too thin.

Therefore, it's crucial to make every dollar count. You don't have time or money to waste on campaigns that don't reach their intended recipients and achieve their goals.

We can help you reach these goals by helping you do the following: With our Dutchpot Mailcast and DutchpotSMS services:

You can:

- Increase your grassroots efforts by allowing people to tell you the ways they wish to be reached - via email, or text messaging.
- Quickly create professional emails or newsletters.
- Notify committee members or other key volunteers about any emergencies or key news by sending a text message.
- Boost fund raising efforts by reaching potential targets with a multi-marketing message campaign, such as first sending a Mailcast, followed by more personal communications like text messages.

DutchpotSMS and **Dutchpot Mailcast** has multiple plans to fit any size non profit, from small operations to hugely funded organisations.
